

# AMOVIT HUND

## Natural vitamins and minerals

**Barfers are presented with a significant challenge: When fed a purely meat-based diet, neither cats nor dogs receive enough of all of the nutrients which they require.**

Barfers attempt to overcome this situation by varying the diet they feed their pets, but they cannot be sure whether the selected food actually contains all of the necessary nutrients.

With AMOVIT, Anifit presents a new unique product for barfers: a mixture of vitamins and minerals which is precisely adapted for animals on a meat-based diet.

All ingredients are

- Plant-based,
- free from preservatives,
- free from other additives
- 100% NATURAL

The mixture contains:

**Vitamins:** Vitamin A, D3, E, B1, B2, B6, B7, B12, K, pantothenic acid (B5), folic acid and niacin,

**Minerals:** Copper, manganese, zinc, potassium and iodine.

Care has been taken to ensure a HIGH-concentration solution. Only small amounts of the Vitamin Mix need to be combined with the food. This ensures that the taste of the food is affected as little as possible.

**1.64 grams contains:**

A	IE	3000
D3	IE	300
E	mg	9
B1	mg	0.6
B2	mg	0.8
B6	mg	0.8
B12	mg	0.0014
Pantothenic acid (B5)	mg	3.3
K1	mg	0.017
Folic acid	mg	0.11
Niacin	mg	8.7
B7	mg	0.027
Copper (Cu)	mg	1.5
Manganese (Mn)	mg	1.5
Zinc (Zn)	mg	9
Potassium (K)	mg	0.14
Iodine (I)	mg	0.45

### Feeding recommendation

Dogs weighing up to 5kg: 0.3 grams per day

Dogs weighing up to 25kg: 0.7 grams per day

Dogs weighing up to 40kg: 1.3 grams per day

Half a loosely filled measuring spoon is equivalent to 0.4g.
